Note: Drivers listed with shared victories under footnotes a-i are credited with full race victories for shared wins.

(a) Bettenhausen relieved Myron Fohr at Milwaukee 8/29/48

(b) On 9/9/13, Earl Cooper started at Corona, Calif., in what was effectively a race for two classes of cars – stock chassis with engines of 450 cubic inches of displacement or less and unlimited racing cars. Cooper, driving a stock Stutz, led the race outright and took the checkered flag to win the 251-mi. stock class, and then continued to race and took the checkered flag to win the 301-mi. unlimited class. He was credited by the AAA with two wins despite driving just one time for a total of 301 miles.

The 1911, 1912, 1923 and 1925 Indianapolis 500 winning cars were each driven in relief during the middle stages by a second driver. The accepted practice of the AAA, the governing body of the sport at the time, was to credit shared victories only when one driver started a race and another finished it. This practice has been continued in this list.
